Nova Scotia Agricultural Statistics

2003

Foreword

Nova Scotia Agricultural Statistics 2003 was prepared as a ready reference on agricultural statistics. Sources are listed at the foot of the tables in case users wish to check on the availability of more recent estimates. The contribution made by the farm operators, processors and others to Statistics Canada's surveys and other information gathering activities is acknowledged and appreciated.

Statistics Canada offers two ways to retrieve data electronically. Both of these sources are available on Statistics Canada website at: www.statscan.ca. On their home page, choose the English or French option. If you choose English, on the blue toolbar at the top of the page, click on "Our products and services" . You then have the option of choosing CANSIM unde the "Access our Online Databases" or for paper publications, under the "Browsing our Internet Publications (PDF or HTML only)", choose either the "free" option or the "For Sale" option. The Statistics Canada tables in the publication indicate whether the publication the information is sourced from is a free or cost publication. The Statistics Canada information contained in this publication is available under the Agriculture folder. There is a fee for information retrieved from CANSIM.
